Any contract, verbal or written, made in violation of this subsection is null and void, and no money may be paid on such contract. The DEPARTMENT shall require a statement from the Comptroller of the Department that funds are available prior to entering into any such contract or other binding commitment of funds. Nothing herein contained shall prevent the making of contracts for a period exceeding 1 year, but any contract so made shall be executory only for the value of the services to be rendered or agreed to be paid for in succeeding fiscal years; and this paragraph shall be incorporated verbatim in all contracts of the DEPARTMENT which are for an amount in excess of \$25,000.00 and which have a term for a period of more than 1 year.”

11. The State of Florida's performance and obligation to pay under this contract is contingent upon an annual appropriation by the legislature. The parties agree that in the event funds are not appropriated to the DEPARTMENT for the PROJECT, this Agreement may be terminated, which shall be effective upon the DEPARTMENT giving notice to the LOCAL GOVERNMENT to that effect.

3. If the recipient expends less than \$500,000 in state financial assistance in its fiscal year, an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, is not required. However, if the recipient elects to have an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, the cost of the audit must be paid from the nonstate entity's resources (i.e., the cost of such an audit must be paid from the recipient's resources obtained from other than State entities).

4. State awards are to be identified using the Catalog of State Financial Assistance (CSFA) title and number, award number and year, and name of the state agency awarding it.

TERMS & CONDITIONS OF CONSTRUCTION

1. The COUNTY is authorized, subject to the conditions set forth herein, to enter DEPARTMENT right-of-way to perform all activities necessary for the construction of the PROJECT (as described more fully in Exhibit "A"). The State Road 415 portion of the PROJECT shall be constructed in accordance with construction plans and specifications to be approved by the DEPARTMENT and consistent with the requirements of the DEPARTMENT. The plans shall include an appropriate plan for maintenance of traffic. Should any significant (as defined by §4-3 of Standard Specifications for Road and Bridge Construction, 2007, and as amended from time to time) changes to the plans be required during construction of the State Road 415 portion of the PROJECT, the COUNTY shall be required to notify the DEPARTMENT of the changes and receive approval from the DEPARTMENT prior to the changes being constructed. The DEPARTMENT reserves the right to adjust the State Road 415 portion of the plans to meet the requirements of permits. The COUNTY shall be responsible to maintain the area of the PROJECT at all times during construction of the PROJECT.

2. The work performed pursuant to this Agreement may require authorization under the Clean Water Act, by the U.S. Environmental Protection Agency for Storm Water Discharges from construction sites. The COUNTY is responsible for obtaining the National Pollutant Discharge Elimination System Permit and all other necessary permits for construction of the State Road portion of the PROJECT. When applicable, such permits will be processed in the name of the DEPARTMENT; however, in such event, the COUNTY will comply with all terms and conditions of such permit in construction of the subject facilities.

3. This Agreement shall act to supersede the normal requirements of separate DEPARTMENT permits for drive-way connection, right-of-way utilization, storm-water discharge and utilities and this Agreement is deemed to constitute such permits.

4. It is expressly agreed by the parties that this Agreement creates a permissive use only and that neither the granting of the permission herein to use DEPARTMENT and/or COUNTY right-of-way nor the placing of facilities upon DEPARTMENT and/or COUNTY land shall operate to create or vest any property right in the COUNTY except as otherwise provided in separate agreements.

5. The DEPARTMENT shall appoint and authorize a single individual to serve as the DEPARTMENT'S representative to coordinate and manage the DEPARTMENT review of COUNTY activities pursuant to this Agreement. The COUNTY shall provide a current construction schedule to the DEPARTMENT'S representative and shall notify the representative at least 48 hours in advance of starting proposed work and again immediately upon completion of work.

6. The COUNTY shall utilize only a DEPARTMENT prequalified prime contractor for the PROJECT.

7. The COUNTY shall require its DEPARTMENT prequalified Consultant CEI to perform quality control testing of the construction in accordance with the County Specifications

approved by the DEPARTMENT for the PROJECT. The DEPARTMENT shall have the right, but not the obligation, to perform such independent testing from time to time as it deems necessary during the course of the construction of the PROJECT.

8. The COUNTY shall not modify the intent of the design plans or the maintenance of traffic concept without appropriate submission by the Engineer of Record (the "Engineer") and approval by the DEPARTMENT. Provided, however, in the event of an emergency, the COUNTY shall immediately make any necessary changes and notify the DEPARTMENT and the COUNTY after the modifications.

9. The DEPARTMENT may request and shall be granted a conference with the COUNTY and at the COUNTY'S option, the COUNTY'S CEI firm, to discuss any part of the PROJECT activities that the DEPARTMENT determines to be inconsistent with the approved design plans and specifications. The COUNTY will monitor the corrective action and provide the DEPARTMENT status reports at such intervals as are reasonable, based on the corrective action undertaken, and the DEPARTMENT may, but is not obligated to, review independently the progress of the corrective action. Provided however, if the DEPARTMENT determines a condition exists which threatens the public's safety, the DEPARTMENT may, at its discretion, issue an immediate stop work order.

10. The COUNTY shall have the continuous obligation to monitor the maintenance of traffic and construction operation during the course of the PROJECT so that the safe and efficient movement of the traveling public is maintained. The COUNTY is further obligated to make such changes to the maintenance of traffic plans as may be necessary. During construction, the COUNTY shall take measures, including the placing and display of safety devices that are necessary in order to safely conduct the public through the PROJECT area in accordance with the latest and current version of the Federal Highway Administration Manual on Uniform Traffic Control Devices for Streets and Highways, and the DEPARTMENT'S 2007 Standard Specifications for Road and Bridge construction and the DEPARTMENT'S 2008 Roadway and Traffic Design Standards, and as those sources may be amended from time to time. The COUNTY may assign the responsibility of this paragraph to the Contractor or its' CEI for the construction of the PROJECT.

11. Prior to the PROJECT bidding, the COUNTY shall provide a project schedule that includes, at a minimum, the date the PROJECT will be advertised for bid, the bid opening date, the award date and the date of the preconstruction conference.

12. It is understood and agreed that the rights and privileges herein set out are granted only to the extent of the DEPARTMENT'S right, title and interest in the land to be entered upon and used by the COUNTY. Any additional right or privilege required to undertake and to complete construction of the PROJECT shall be secured by the COUNTY.

13. Upon completion of the work in accord with the Plans, the COUNTY shall furnish a set of "as-built" plans certified by the Engineer of Record/CEI that the necessary improvements have been completed in accordance with the Plans as the same may be modified in accord with the terms of this Agreement. This certification shall include a statement that necessary inspections, tests, and physical measurements have been made, and that all materials entering into the work conform to the Plans, conform to the applicable specifications contained in the Standard Specifications for Road and Bridge Construction, 2007 edition as amended, or otherwise conform to or meet generally accepted professional practices. Additionally, the COUNTY shall assure that

all post construction survey monumentation required by Florida Statutes is completed and evidence of such is provided to the DEPARTMENT in a manner acceptable to the DEPARTMENT. Upon acceptance of right-of-way documents as specified in Paragraph 12, then the PROJECT shall be deemed accepted by and turned over to the DEPARTMENT.

14. In the event contaminated soil is encountered by the COUNTY or anyone within the DEPARTMENT right of way, the COUNTY shall immediately cease work and notify the DEPARTMENT. The DEPARTMENT shall coordinate with the appropriate agencies and notify the COUNTY of any required action related thereto.

15. If applicable, the COUNTY shall assure that load ratings are submitted on any vehicular bridge prior to the final submission of the structure plans for DEPARTMENT review. Structures shall not be opened to traffic until a signed and sealed final bridge load rating that meets the Florida legal loads standard is complete.
